Record of Graves in Churchyard

This record is compiled from the current burial register, inscriptions on the gravestones and memorials in the church.
The current burial register was started in 1992.

Many graves no longer have gravestones and some of the remaining gravestones are badly weathered.

This file was compiled in July 2007 and was last updated in February 2008.

I would like to thank Sir Mervyn Medlycott for allowing the use of data from his survey of the monumental inscriptions at Christchurch.

I have used my best endeavours to create this record, if you notice any errors or can add any information please contact me.

For a definitive record you should consult the burial registers that are at the County Records Office in Taunton. (see contact details in LINKS)
